

General Restorative and High Priority Groups

Referrals to the Restorative Department that do **not** fit into the categories of Periodontics, Prosthodontics, Endodontics, Tooth wear or Dental Implants must be made using the General Restorative Referral Form found at the link below:

- [General Restorative Referral Form](#)

Completed referral forms should be emailed to leedsth-tr.restorativereferral@nhs.net.

The following categories of patients are accepted for treatment:

- **Oncology patients:**
 - intraoral cancer resections, obturators and post radiotherapy management.
- **Developmental defects:**
 - cleft lip and palate, severe hypodontia, joint orthognathic and/or orthodontic cases and amelogenesis, dentinogenesis imperfecta cases.
- **Trauma:**
 - severe trauma (such as seen in patients following road traffic accidents) involving significant damage to the dentoalveolar complex.
- **Severely medically compromised:**
 - e.g. patients with severe bleeding disorders, immunocompromised and post organ transplantation.
