

Improving cancer care with your data

Leeds Teaching Hospitals is planning to share the records of patients with cancer with Flatiron Health UK, a commercial organisation.

This is a pioneering partnership with Flatiron Health UK to improve data available to researchers to improve cancer care and treatment.

Your data can help us improve the care of patients with cancer.

All information shared with Flatiron Health UK will be stored securely so that it remains confidential.

We will contact you if we are planning to include your data in this project. You will be given details on how to opt-out if you do not wish for your data to be shared.
